Our Values

We value everyone being different in how they look, what they believe, where they come from. We value that being different helps us have a colourful community at school and in Britain.

We value equality as we are all equal and are treated the same. Everyone has the same opportunities, whether they are a boy or a girl or have different abilities.

We value courage, as taking risks helps us face the world and stand on our own two feet. Overcoming our fears and being daring helps us to become confident people.

We value friendship as it is important to help and care for each other. We build relationships and trust and protect our friends. Friendship enables us to work together and make decisions as a family.

We value loyalty because it means we can trust and depend on each other. We are loyal to our friends, school, family and community and are proud to be British and part of the Horningham family.

Teamwork

Honesty

Determination

Respect

Peace

Responsibility

Happiness

We value teamwork as together we learn. Teamwork helps us to support and encourage each other. We value being part of a team and being competitive in a healthy way.

We value being honest and we trust that we are true to each other, our school and ourselves. We always tell the truth and are responsible for our own actions.

We value determination and try to push ourselves to the limits so we can do better and achieve more. We value being resilient and not giving up, so we can tackle any difficulties we have in work or life.

We value respect, as being polite to our peers and in the community and having good manners are good qualities for good people. We respect each other's ideas, efforts, belongings and beliefs.

We value peace because arguing and fighting make us less of a family. We want a school, community and world of friends, not enemies.

We value responsibility as having jobs and leadership roles in school now helps us prepare for making a difference later in life. We value eco and easy excellence because we are all responsible for our school, our community, Britain and the wider world.

We value happiness as being happy makes us have a cheerful community. Being happy helps us keep a positive attitude and spreads happiness to others along the way. If you're happy, anything's possible!
